**DETAILED ACTION**

1. Claims 1-88 are pending in the application.

***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 2-84, drawn to compounds of formula (I), pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 546, subclass 314.
- II. Claims 2-84, drawn to compounds of formula (II), pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 546, subclass 306.
- III. Claims 2-84, drawn to compounds of formula (III), pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 549, subclass 398.
- IV. Claims 2-84, drawn to compounds of formula (IV), pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 546, subclass 193.
- V. Claims 2-84, drawn to compounds of formula (V), pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 564, subclass 123.
- VI. Claims 2-84, drawn to compounds of formula (VI), pharmaceutical compositions containing these compounds and a method of using these compounds, classified in class 548, subclass 146.

VII. Claims 1 and 85-88, drawn to potassium channel activator compounds other than defined above for groups I through VI, pharmaceutical compositions containing these compounds and a method of using these compounds, classified in classes 540, 544, 560, 562 etc.

3. The inventions I through VII as defined above are patentably distinct, each from the other since they are structurally so divergent that a reference showing compounds of invention I would not render compounds of inventions II through VII prima facie obvious. Search required for e.g ; compounds of invention I in class 546, subclass 314 is not the same search required for e.g ; compounds of invention III in class 549, subclass 398 and therefore, constitutes a burdensome search.

4. A telephone call was made to the applicant's attorney, Mr. Edward D. Grieff on March 2, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143). The applicants are also requested to elect a specific species within the elected group for initial search.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
